8 WEEK BIKINI BODY ABS: NUTRITION SCHEDULE

WEEK 4

You are absolutely amazing! Every baby step you've taken has made a difference and at the end of these 8 weeks, you will see the results clearly in how you look and feel. Keep it up, every good, better, best choice counts! Just like last week, it's important to set intentions to start fresh every day and do our very best to be healthy and treat our bodies with love!

SYMBOLS

X's 2 means you are making enough for 2 meals.

Looking at a week of new recipes can seem overwhelming which is why I'm keeping it simple. Worst case scenario, you get overwhelmed before starting and quit. If you do, it's ok, we're human. Jump back on the horse, ask for help and know that you're going to keep pushing forward every day until you get it. When a baby is first learning to walk and falls down we don't throw in the towel and say it's never going to happen for them. We keep working with them until they get it, which is what we're going to do here. We're going to practice and work at it until "we can walk".

TRACKING YOUR PROGRESS

Don't forget to track your progress. Tracking progress can be really fun. Looking back at the progress you've made is a great feeling. It reminds us that every day we are taking steps and making changes and although it may feel uncomfortable to see where we are now, it will all be worth it in the long run. I encourage you to take photos (both front and back) in a bikini, sports bra and shorts or tank top and shorts so that we can measure your progress. We will take check-in photos in 1 month and at the end of 8 weeks. It's going to be fun to see your body change and progress!

I love seeing your progress so please tag me in your social media pages with #stephendel @stephendel. You can also email your progress photos to me at thefitandfearless@gmail.com.

RECIPES FOR WEEK FOUR SUNDAY PREP

HOW TO HARD BOIL EGGS

1. **Place the eggs in a single layer at the bottom of a saucepan. Cover with at least an inch or two of cold water.** The more eggs that are crowding the pan the more water you should have over the eggs. Heat the pot on high heat and bring the water to a full rolling boil.
2. **Turn off the heat, keep the pan on the hot burner, cover, and let sit for 10-12 minutes.** *If you have the type of stove burner that doesn't retain any heat when turned off, you might want to lower the temp to low, simmer for a minute, and then turn it off.*
3. Depending on how cooked you like your hard boiled eggs, the eggs should be done perfectly in 10-12 minutes. If you like your eggs not fully hard cooked, it can take a few minutes less.
4. If I'm cooking a large batch of eggs, after 10 minutes I'll sacrifice one to check for doneness, by removing it with a spoon, running it under cold water, and cutting it open. If it's not done enough for my taste, I'll cook the other eggs a minute or two longer.
5. **Strain water from the pan and run cold water over the eggs to cool them quickly and stop them from cooking further.** Or, if you are cooking a large batch of eggs, remove them with a slotted spoon to a large bowl of water.

HOW TO COOK QUINOA

1. Rinse 1 cup of quinoa in a fine mesh strainer until water runs clear, drain and transfer to a medium pot.
2. Add 2 cups water and bring to a boil.
3. Cover, reduce heat to medium low and simmer until water is absorbed, 15 to 20 minutes.
4. Set aside off the heat for 5 minutes; uncover and fluff with a fork.
